At an MC (OUT) after a Rest Halt, Competitors will restart at designated intervals either in number order or in order of their arrival at the MC (IN), or as may be specified in an Official bulletin.

Each Competitor shall be given a due starting time from any MC (OUT) the difference between this time and his actual starting time will be counted towards exclusion for cumulative lateness. Also a time penalty will be applied

Competitors arriving at any MC (IN) within their maximum permitted lateness will, subject to Article 16.13(a) above, restart from any MC (OUT) with Zero lateness, i.e. lateness is accumulated only between two successive MC's.

#### (b) Special Stage Arrival Control (SSA)

At this control the competitor will be given their time of arrival and will have a minimum of 3 minutes after the arrival time in order to allow the crew to prepare for the stage. The area between the SSA Control and the SSS is Park Ferme.

#### (c) Special Stage Start Control (SSS)

**(f) Passage Control (PC)**

At any point indicated in the Road Book, the Organisers may establish a PC in order to collect Time Cards from Competitors or for other purposes. A Competitor failing to provide the necessary documents at any PC will be deemed not to have reported there and will be excluded, Article 16.1 & 16.7).

Any times recorded at a PC will be used only to ensure that Competitors have followed the requirements of the Road Book, and not to calculate Cumulative Lateness.

All Controls will open 15 minutes before the Due Time of Car "0" and close 16 minutes after the Due Time of the last Competitor still running where, having taken into account any delays. Regrouping controls will/may be established along the route, and will be subject to the rules governing Time Controls. The purpose of these regroupings will be to reduce intervals, which may occur as a result of late arrivals or retirements.
